Elite Semiconductor Microelectronics Technology Inc.

Environment Policy

As an IC design company with businesses focusing on the design and development of semiconductor products. ESMT holds the spirit of environmental protection to pursue the business continuity .To achieve this goal, ESMT is committed to:

- Comply with all environmental regulations and corporate social responsibility .
- Devote to green product design to reduce the impact on environment.
- Continue to minimize waste and conserve energy as well as make efforts to prevent pollution.
- Review the performance on environmental protection regularly to ensure continual improvement.
- Practice environmental protection education to raise employees awareness.
- Communicate with subcontractors continuously to promote our concept of environmental protection.

We openly announce the above policy of environmental protection for attention of our employees and the public.

Chairman Ming-Chien Chang 11/4 2026
